

C.M. has desired that no deputation of doctors, paramedical and other staff in Health Department should be made. Only in cases where a health facility is without a doctor or paramedic, Civil Surgeon may allow deputation, in conformity with the existing policy, strictly for 14 days only under intimation to DGHS. The Civil Surgeon while making such a deputation should immediately move a proposal for regular posting of the required staff. FCHM should review the list of deputations so made on a monthly basis and send the same for C.M's information.
